About Aspira Women's Health Inc.

Aspira Women's Health Inc.SM is transforming women's health with the discovery, development, and commercialization of innovative testing options and bio-analytical solutions that help physicians assess risk, optimize patient management, and improve gynecologic health outcomes for women. Aspira Women's Health is particularly focused on closing the ethnic disparity gap in ovarian cancer risk assessment and developing solutions for pelvic diseases such as pelvic mass risk assessment and endometriosis. OVA1plus[®] combines our FDA-cleared products, OVA1[®] and OVERA[®], to detect risk of ovarian malignancy in women with adnexal masses. Aspira GenetiX[™] testing offers both targeted and comprehensive genetic testing options with a gynecologic focus. With over 10 years of expertise in ovarian cancer risk assessment, Aspira Women's Health is working to deliver a portfolio of pelvic mass products over a patient's lifetime with our cutting-edge research. The next generation of products in development include OvaWatch[™] and EndoCheck[™]. To improve patient accessibility, Aspira Women's Health has launched our Aspira SynergySM technology transfer platform to empower health systems, academics, regional labs, and physician group labs to conduct genetic and specialty tests in-house.
