**AUSTIN, Texas — Vermillion, Inc. (NASDAQ: VRML)**, a bioanalytical-based women's health company focused on gynecologic disease, today announced the appointment of Nancy G. Coccozza to its Board of Directors. Ms. Coccozza joins the Board effective August 17, 2018, and brings the Board composition to six members.

"We warmly welcome Nancy to our Board," said Valerie Palmieri, President and CEO of Vermillion. "Nancy will be a tremendous asset to us, as she brings over three decades of managed care leadership and reimbursement experience. Her insights and perspective will prove invaluable as Vermillion launches new offerings to expand its women's health product line. In addition, women now represent half of our board; truly a milestone for our women's health company!"

Ms. Coccozza stated, "I am excited to join Vermillion's Board of Directors as the Company leads the efforts in creating a new standard of care in ovarian cancer and women's health. I look forward to contributing to the Company's success in a big way."

Ms. Nancy Coccozza recently retired in June 2018 from the position of President of the Medicare Business for Aetna, where she was responsible for Aetna's Medicare strategy, growth and operating results; she led a team that, at the time of her retirement, served more than 4 million Medicare members nationwide through a robust portfolio of Medicare Advantage plans, Medicare prescription drug plans and Medicare Supplement plans. Prior to Aetna, Ms. Coccozza was Executive Vice President at HealthMarkets, an individual market health insurance provider, where she led the Medicare division. She also led the government insurance programs at Coventry Health Care. Ms. Coccozza began her career at Aetna, where she spent 16 years building and leading various commercial managed care operations. Ms. Coccozza holds a B.S. degree in accounting from Philadelphia University.

### About Vermillion, Inc.

Vermillion, Inc. is dedicated to the discovery, development and commercialization of novel high-value diagnostic and bio-analytical solutions that help physicians diagnose, treat and improve gynecologic health outcomes for women. Vermillion, along with its prestigious scientific collaborators, discovers, develops, and delivers innovative diagnostic and technology tools that help women with serious diseases. The company's initial in vitro diagnostic test, OVA1® (MIA), was the first FDA cleared, protein-based In Vitro Diagnostic Multivariate Index Assay, and represented a new class of software-based liquid biopsy in vitro diagnostics. In March 2016, Vermillion received FDA clearance for Overa™, a Multivariate Index Assay 2nd Generation (MIA2G) test with significantly improved specificity and ease of use. Vermillion's tests are intended to characterize and stage disease, and to help guide decisions regarding patient treatment, which may include decisions to refer patients to specialists, to perform additional testing, or to assist in monitoring response to therapy.
